

Comprehensive Reputation Scorecard for Your Healthcare Provider Selection

Short Description:

ScoreDoc increases the likelihood of patients choosing the right provider for their healthcare needs.

Long Description:

ScoreDoc creates a comprehensive reputation scorecard of the prospective healthcare provider by combining the sentimental analysis report with the average online ratings, number, and recency of reviews on the most relevant review sites. It also provides the user with a percentile score of the provider/practice they are considering to visit by comparing the score of several other healthcare practitioners within that specialty in the same city/region.

Key Features:

- Comprehensive reputation score of the doctor you are considering and how it compares to other providers within their specialty.
- The average rating, number, and recency of reviews on the most relevant review sites.
- Sentiment analysis report of review comments.
- One-click access to view the provider's profile on all seven review platforms.
